**DETAILED ACTION**

***Response to Amendment***

1. The compliant amendment filed December 10, 2008, is noted with appreciation.
2. Claims 1-4 and 6-19 are now pending.

***Election/Restrictions***

3. This application contains claims 1, 2, and 6-18, drawn to an invention nonelected with traverse in the reply filed on February 4, 2008. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

***Response to Arguments***

4. The objection to the abstract set forth in the prior Office action is withdrawn in view of the amendment.
5. The rejections of claim 5 set forth in the prior Office action is moot in view of the cancellation of this claim.
6. The rejection of claims 3 and 4 under 112, 2nd paragraph, set forth in the prior Office action, is withdrawn in view of the amendment.
7. The rejection of claim 3 set forth in the prior Office action is withdrawn in view of the fact that the cited reference fails to teach the newly-added limitation "forming a thin film pattern on the pattern formation region by applying a fluid to the pattern formation region that exhibits a non-affinity to the sulfur compound film and an affinity to the base."

***Claim Rejections - 35 USC § 112***

8. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

9. Claims 3 and 19, are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.
10. Claims 3 and 19 recite the limitation: "...to form a pattern non-formation region comprised of a metal layer pattern non-formed region and a pattern formation region comprised of a metal layer pattern formed region and a base exposed region." Applicant has illustrated this limitation as follows:

The Examiner has reviewed the portions of the specification that Applicant asserts as supporting this limitation, but none appear to describe illustrated arrangement including the "pattern non-formation region" of exposed base (at right in the illustration). The specification only describes the illustrated alternating areas of metal and exposed base (at left in the illustration). Consequently, the newly added subject matter is not fully supported by the originally-filed disclosure.

***Allowable Subject Matter***

11. Claim 4 is allowed.
12. The following is an examiner's statement of reasons for allowance: See the reasons set forth under this heading in the prior Office action.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

13. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
